

COVID-19 is more likely to affect...

Senior citizens
(age >60 yrs).

People with **chronic lung disease** or moderate to severe **asthma, heart disease**;

People with **Immunocompromised** conditions;

People with **diabetes, hypertension and/or obesity**.

Take extra care!

Stay indoors and avoid guests and visitors as far as possible.

Maintain hand hygiene.

Clean and disinfect frequently touched surfaces at home.

If you have a caregiver, **ensure that they are healthy** with no underlying medical conditions

Consider ordering essentials and groceries **online**.

Continue with your prescribed medications on time

If you have to step out, **always wear a mask and maintain a distance of 2 metres (6 feet)**.

Always **remain connected** with your loved ones.
